MANITOBA**

F O R E W O R D

This is your Guide to Manitoba, and we sincerely hope it will assist you to further enjoy your stay in our province. The primary function of this booklet is to provide the traveller with advance information about the towns he is liable to pass through on his journey.

The first few pages provide information of a general nature which will be of concern to the visitor; various regulations; an introduction to the province; and the location of points of special interest. The major portion of the book consists of an alphabetical listing of villages, towns and cities, giving the following information in this order:

- distance from Winnipeg, Manitoba;
- highway location;
- general information;
- transport services;
- accommodation;
- eating places;
- recreational facilities;
- special events or places.

Used in conjunction with your road map, this booklet should make your travels more interesting, and your stops in Manitoba more worthwhile . . .

WINNIPEG MANITOBA

ABOUT *Manitoba*

THE PROVINCE OF MANITOBA with a total area of 246,512 square miles, has a population of 757,614. Nearly 27,000 square miles of its area is composed of lakes and rivers.

Although Manitoba did not become a Province until 1870, its area has the proud distinction of being under the British flag for longer than any other area in the whole of the North American continent. Located in the geographical centre of the continent, Manitoba has 500 miles of rugged sea coast and possesses its own salt water port at Churchill, from which grain and other produce is shipped to overseas ports all over the world.

Forests make up 40% of the Province's land area and seven separate districts have been set aside as publicly owned forest reserves.

Some of these have been developed as recreational areas for the benefit of the inhabitants and tourists alike.

Many of Manitoba's historical sites have been marked by statues and cairns and several famous old forts are still to be seen today—forming a link with the past. Sites of historical interest are listed in this booklet under the towns' index.

Latest statistics show that, at the conclusion of the war, there were more than 1,450 establishments connected with manufacturing industries in the Province, employing nearly 41,000 people, with a gross production value of over \$450,000,000. Some of these leading industries are:

Slaughtering and meat packing.

Flour and Feed Mills.

Railway Rolling Stock.

Butter and Cheese.

Foods, miscellaneous.

Clothing Factories.

Miscellaneous
chemical products.

Bags, cotton and jute.

Recreation Areas

With its vast lake and forest districts, Manitoba has become renowned as a natural playground for sportsman and vacationist from all over the continent. Among some of the main holiday districts are:

The Riding Mountain National Park.

The Whiteshell Forest Reserve.

The Pas—Cranberry Portage Area.

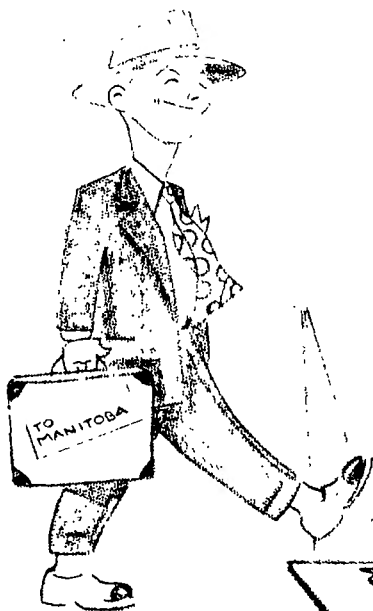

Lake Winnipeg Beaches.

For further information about geography, history, vacation and industrial possibilities of Manitoba, write to the Travel and Publicity Bureau, Room 200, Legislative Building, Winnipeg, Manitoba.

It's Easy TO

ENTER *Canada*

Visitors from the United States have no trouble entering or leaving Canada. You do not require a passport, if you are a United States citizen. Here's all you have to do—simply report to the Canadian Immigration and customs officers at the port of entry and obtain the requisite permit for admission of your car and outfit. This permit entitles you to travel in Manitoba or any other part of Canada, by any means you choose, for a period of sixty days. This may be extended for a period of time up to six months.

If you come by train or bus, you will be contacted by Canadian Officials.

You may bring into Canada for personal use, free of duty or deposit, your automobile, trailer, motorcycle, bicycle, personal effects, cameras, golf clubs, fishing tackle, portable boats, out-board motors, tents, camp equipment, dogs, and various other articles. All, of course, must be reported fully to Customs Officials. **ALL DOGS FOR ENTRY INTO CANADA FROM THE UNITED STATES SHALL BE ACCOMPANIED BY A CERTIFICATE SIGNED BY A VETERINARY INSPECTOR OF THE U.S. BUREAU OF ANIMAL HUSBANDRY OR A CERTIFICATE SIGNED BY A LICENSED VETERINARIAN OF THE STATE OF ORIGIN.**

A visiting United States citizen may leave Canada either by port of entry or by any other port, by any air or bus line or railway. American citizens returning to the United States may be required by the examining immigration officer at the border to produce evidence of their citizenship.

It is advisable that persons departing from the United States equip themselves with evidence of their right to return, in the form of such identifying documents as a passport, either valid or expired, birth or baptismal certificate, voter's certificate, tax receipts, letters of identification from a bank manager or responsible official, personal letters, motor car license, driver's license or similar papers. Naturalized citizens should carry their naturalization certificates.

Driving to Manitoba?

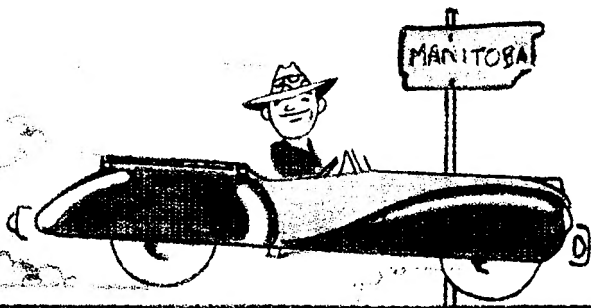

Here's what you have to know about Manitoba's Safety Responsibility Law.

In the event that you become involved in an accident in Manitoba where the property damage apparently exceeds \$25.00 or where there is bodily injury or death:

1. Report the accident as soon as possible and in any event within 24 hours to a police officer;
2. If your car is impounded, get in touch with the Registrar of Motor Vehicles, Telephone number 907 349 (Winnipeg) and upon your complying with the requirements of the law as hereinafter mentioned, he will facilitate the speedy release of your motor vehicle;
3. If you can satisfy the Registrar of the particulars of your insurance re personal liability and property damage, your motor vehicle can be released in 24 hours or less;
4. If you do not carry personal liability and property damage insurance, you can obtain the release of your motor vehicle:
 - (a) By producing to the Registrar proof that you have satisfied all claims against you for damages; or
 - (b) By putting up security in a sum sufficient to satisfy any judgment that may be obtained against you; and
 - (c) In addition to (a) or (b) satisfying the Registrar as to your responsibility for the future.

Benefits you Receive From the Law:

1. If the other motorist has not got proof of financial responsibility, his car will be forthwith impounded and if necessary will be held for six months pending his settling any legitimate claim you may have against him arising out of the accident.
2. His driver's licence and privilege of registering a car will be forthwith suspended pending settlement of your claim.
3. If you sue him and cannot collect on your judgment for personal injuries you may apply to the court for an order directing payment of your judgment from the Unsatisfied Judgment Fund of the Province of Manitoba. Payment from the fund

shall not exceed \$5,000 exclusive of costs for death or bodily injury to one person and shall not exceed \$10,000 exclusive of costs for death or bodily injury to more than one person in one accident. This fund is obtained by a levy of \$1.00 upon resident owners of motor vehicles. Non-residents receive the benefits gratis.

The Government has made provision whereby a non-resident contemplating a trip to Manitoba may obtain from his insurance company before he leaves his home town, a pink Motor Vehicle Liability Insurance Card of the Province of Manitoba. While it is not necessary to be in possession of one of these cards at the time of the accident in Manitoba, nevertheless the fact that you have one of these cards in your possession will save you from even temporary embarrassment, since production of the card to the police will prevent your car from being impounded unless you have also been guilty of a criminal offence.

All insurance companies in the United States can obtain these cards by complying with the simple requirements of the Superintendent of Insurance of the Province of Manitoba. Many insurance companies have already obtained the cards.

This law has been enacted for your safety and for your protection against the irresponsible motorists.

Note—The speed limit on all highways in Manitoba is set at 50 miles per hour, with the exception of specially denoted restricted speed zones. This speed limit is enforced by the Royal Canadian Mounted Police.

You Can Take Home Canadian Goods

Visitors to Canada may take out, or have sent to them after they leave any goods purchased in Canada for personal or household use. **PROVIDED YOU HAVE BEEN IN CANADA AT LEAST FORTY-EIGHT HOURS**, United States tariff regulations allow you to take into the United States, entirely duty free, goods of the above description up to a prescribed value. Each member of a family is entitled to this exemption. Latest information pertaining to this exemption may be obtained from customs officials at ports of entry. All articles claimed within the exemption must be declared to the United States Customs Officials at the port of entry whether or not goods accompany the traveller. Examination will be facilitated if receipted bills for the purchases are presented. Visitors may bring into Canada any amount of money they desire and they may take out with them on their return home any balance which they have not spent. Your United States currency may be used anywhere in Canada, to purchase goods, pay hotel bills, etc.

Flying to Manitoba?

If you plan to fly to Manitoba in a private plane (not on a regular scheduled passenger flight) the following information is important:

Advance Notice of Arrival—

- (a) Prior to departure for Canada from a foreign airport, advance notice of date and approximate time of arrival shall be given to the proper officer of Customs.
- (b) Advice to Customs officers as to time and place of first arrival at a Canadian Customs airport shall be forwarded by telegraph, and the journey shall not be commenced until a telegraphic reply (sent collect) has been received from the Canadian Customs officer. The importance of this will be realized when one considers the possibility of overflying the intended airport, or landing at another place by mistake, or making a forced landing, in all of which cases the reply from the Canadian Customs officer will assist in establishing the bona fides of the tourist in making his report to Customs or the Royal Canadian Mounted Police, as the case may be.

Formalities on Landing—

- (a) First alighting of the aircraft shall be made at a Customs airport or airfield designated as such by the Department of Customs. In Winnipeg it is Stevenson Airport.
- (b) On arrival, the owner or pilot of the aircraft shall report to the proper officers of Immigration and Customs, and the Customs officer may issue Permit Form C-15 for a period not exceeding three months.
- (c) Should subsequent landings be made in Canada prior to final departure, no report at Customs is necessary provided the owner or pilot is in possession of a valid Form C-15. However, he shall produce the same to Customs or airport officials, or police authorities, on request, as evidence of his right to alight without report at Customs.

Formalities on Departure—

The owner or pilot of the aircraft shall report to the proper officer of Customs and surrender Permit Form C-15.

Fees and Charges—

- (a) No fee will be collected for Customs attendance in connection with reports inward and outward of aircraft for pleasure purposes, or for the issuance of Form C-15.
- (b) No charge will be made except when service is requested and provided at (i) airports or air fields outside the hours during which a Customs officer is regularly on duty, and (ii) airports or air fields at which no Customs officer is regularly on duty. In such cases, an officer's return transportation shall be repaid by the parties accommodated.

First Aid on the Highways . . .

The need for first aid can usually be prevented by use of the age-old system of *Safety First* . . . We value lives in Manitoba . . . both our own and those of our visitors . . . so *Please*

Drive Carefully . . .

Should you require first aid while on the highways, you will find first aid boxes located at strategic points throughout the province. These boxes are marked by highway signs one mile from them, and at the boxes. They contain . . . stretchers, blankets and first aid materials such as iodine, splints, bandages, gauze, etc. Maintenance of these boxes is a joint project of the Manitoba Government, The Canadian Red Cross Society, The St. John Ambulance Society and the Royal Canadian Mounted Police.

Bringing a Firearm?

Here are regulations concerning the use of firearms in Manitoba:

1. Each American visitor must have a weapon permit (Form 76B) to have a shotgun or rifle in his possession in Canada. An application form for such permit may be obtained from the Travel and Publicity Bureau, Legislative Building, Winnipeg, Manitoba. This application must be completed and mailed to:
The Officer Commanding, Royal Canadian Mounted Police,
1091 Portage Avenue, Winnipeg, Manitoba.
2. It is necessary that you submit a reference as to your character—this to be obtained from the local Chief of Police, or other similar prominent person—or give name of Gun Club or other Association with which you may be affiliated in Canada. (Please disregard if permit issued in any previous year.)
3. Permits may be issued for weapons for sporting purposes; or for revolvers only when required for target practice in a regularly organized shooting club.
4. Permits when issued authorize the importation of ammunition suitable for the firearms mentioned thereon. Fifty (50) rounds of ammunition may be brought in free of duty or deposit. Additional quantity of ammunition is dutiable. The permit authorizes the purchase of ammunition in Canada.
5. If possible, please specify in your reply the particular port of entry at which you will be reporting upon arrival in Canada.
6. Information regarding the game seasons, licenses, etc., of the Province of Manitoba can be obtained by writing to the Director, Game and Fisheries Branch, or The Travel and Publicity Bureau, Legislative Building, Winnipeg, Manitoba.
7. In Manitoba it is unlawful to use an automatic or auto-loading shotgun; or a pump or repeating shotgun with a magazine which has not been permanently plugged or altered so that it cannot carry more than two shells in the magazine, or any gun larger than a ten guage at any time for hunting game birds. No game birds or other waterfowl shall be hunted from an aeroplane, sailboat, yacht, launch, boat or canoe propelled by steam, gasoline or other mechanical power. No person shall carry or discharge a rifle or other weapon using ball cartridges on any marsh during an open season for game birds or hunt geese or ducks at any place with such weapon. It is illegal to shoot from any aeroplane or vehicle or to carry a loaded firearm in or on any aeroplane or vehicle. The use of a .22 calibre rimfire rifle is prohibited in hunting big game. An Export Permit is required for taking game out of the Province. It is issued with the hunting license, and there is no fee charged.

Look for this sign . . .

In Manitoba every effort is made to extend a warm welcome to our visitors and to ensure that their stay with us is an enjoyable one. For this reason Tourist Camps and Tourist Homes are required to be licensed in the province in order to protect the health and comfort of the travelling public. Visitors to the province are advised to look for the "Approved Accommodation" insignia shown above, which is displayed at the entrance to tourist camps which are approved and graded by the provincial government.

BRANDON

Located at the junction of No. 1 and No. 10 Highways, 140 miles west of Winnipeg, **Brandon** is Manitoba's second city. It is renowned as the Agricultural Capital of Manitoba, and as a distributing centre for the western half of the province. One of the highlights of the year at Brandon is the **Provincial Exhibition**, held at the spacious Fair grounds. This is the largest exhibition of its kind in Western Canada, and features a million dollar live stock parade, an industrial exhibit, horse racing and a monster midway and grandstand show. This

Display of the midway, Provincial Exhibition, Brandon.

The value of Manitoba's mineral production in 1947 exceeded all previous records, showing an increase over 1946 of \$1,833,214.00.

BRANDON—Continued

is an event worth visiting . . . The Provincial Exhibition of Manitoba, at Brandon, during the week of July 1st.

Brandon at any time of the year is worthy of a visit, and the guest in the city will find many points of interest to visit, and many recreational facilities at his disposal. The business man will find Brandon a growing industrial centre, and a very important distributing centre for a large rural area.

CHURCHILL—Continued

Excursions

The Canadian National Railway runs a special excursion train from Winnipeg to Churchill in August of each year. This train makes stops at special points of interest along the entire route. For further information contact the nearest Canadian National Railway agency.

Historical Interest

Hudson Bay was frequently searched by the early explorers in quest of a northwest passage to India. The Churchill River was discovered in 1619 by Jens Munck, a Dane. The bay itself is named after the renowned explorer, Henry Hudson, who discovered the huge body of inland water, in the year 1610.

The Hudson's Bay Co., founded in 1670, operated a profitable fur business in this territory and built Fort Prince of Wales at what is now Churchill. Churchill is a natural harbor. In 1929 a railroad connected Churchill with the interior of the continent and a seaport was established.

Telephones—The Manitoba Telephone System is owned and operated by the province under a Telephone Commission. The system covers practically every inhabited part of the Province, including The Pas, Flin Flon, Sherridon and Central Manitoba mining districts. The average cost for service is very low, rural rates being the cheapest in the Dominion. Winnipeg is supplied with full automatic service, and, for the area covered, the cost is less than that of any city of similar size on the American continent. Long distance service is practically world-wide, including ships at sea. Telephone exchanges number 128, rural telephones, 16,682 long distance wires, 27,895 miles; rural wires, 55,077 miles. Total telephones in province, 117,038; 110,012 being Manitoba Telephone System; 3,480 connecting companies.

Mining production in Manitoba in 1948 was over 26 million dollars. Production during 1948 was up 50% over the previous year.

★ ★ ★

Stock Yards—The Union Stock Yards at St. Boniface are the largest in Canada, and represent an investment of about one and one quarter million dollars. They will take care of about 25,000 head of stock at once.

★ ★ ★

There are two principal railway systems in Manitoba; the Canadian National Railway and the Canadian Pacific Railway. The total rail mileage in Manitoba is 4,837 miles, exclusive of yard tracks and sidings.

WINNIPEG

Provincial Legislative Buildings.

Winnipeg, the capital of Manitoba, with a population of 229,045 (307,494 for Greater Winnipeg), is the largest city in the province of Manitoba and holds fourth place among cities in the Dominion.

Known as the "Gateway to the West," Winnipeg attained its prominent position mainly because of its situation on the edge of the vast Canadian prairie agricultural area. With the coming of the railway, Winnipeg became the natural converging point of all East-West traffic. The evidence of this is seen by the huge railway yards in the city—the largest individually owned and operated in the world. In St. Boniface, across the river, is located the largest stockyards in Canada. These factors made possible the establishment of large meat packing plants which form the greatest single

industry in the province. Other industries have been, and still are being, developed in the city, where the abundant and low cost electric power, good labour relations and the broad market of the west, makes Winnipeg a natural area for industrial expansion. The city houses every kind of industry—and is also the headquarters and supply center for the fast developing mining areas of the north.

To the visitor, perhaps the most noticeable characteristic of Winnipeg is it's broad and well lit streets. Portage Avenue is the centre of the shopping district of this metropolis. Colourful and gay eating places, hotels, dance clubs and entertainment spots are liberally scattered throughout the city.

In the suburb of Fort Garry is the University of Manitoba, renowned for its achievements in agricultural research.

Forty-nine public parks are situated in Winnipeg, of which the most noted are the Assiniboine and Kildonan Parks which cover approximately 400 acres of cultivated parkland and beautiful driveways. All through the city can be seen beautifully architected churches of all denominations, while the public buildings rank with any in the world.

Tourist Enquiries

Manitoba Travel & Publicity Bureau, Legislative Building.
Tourist Information Desk, Legislative Building.

Recreation

Among Winnipeg's many recreation attractions are included: swimming pools, golf courses, theatres, bowling alleys, riding stables, roller skating and public parks.

Public Parks

Of the 49 public parks in Winnipeg, two at least have attained an international reputation. These are the Assiniboine Park, situated in the west end of the city on the Assiniboine River (which contains a zoo, conservatory, a pavilion and spacious well-kept grounds) and Kildonan Park on Main Street, situated on the Red River, which is one of the most attractive drives in Manitoba.

Historical Sites

Fort Garry Gates on Main Street, near the Assiniboine River. First locomotive (Countess of Dufferin) used in Western Canada, is situated at the Canadian Pacific Railway depot on Main Street south.

Winnipeg Museum, situated in the Civic Auditorium, Memorial Boulevard, off Portage Avenue.

Excursions

During the summer months, Moonlight Excursions to Grand and Winnipeg Beaches operated daily by both railways. The S.S. Keenora, a small passenger boat, makes a weekly cruise on Lake Winnipeg throughout the summer months. It leaves Winnipeg dock each Monday and returns the following Saturday, spends Sunday making short excursions to Lockport and return.

Winter Recreation

Ice skating, hockey, curling, carnivals, indoor swimming, bowling, Celebrity Concert Series and skiing are but a few winter activities.

Service Clubs

Numerous international clubs and organizations are situated in Winnipeg. For further reference of locations, turn to the list published on the yellow pages of the Winnipeg Telephone Directory.

Special Events

For latest information on special events, contact the Tourist Information Desk in the Legislative Building.

Manitoba's forest production over an eleven-year period from 1937 to 1948 jumped from 5.6 million dollars to 14 million dollars, or 150%.

Winter transforms Winnipeg parks.

RECREATIONAL FACILITIES *in the Province*

1 1 1

- **GOLF COURSES**
- **FISHING AREAS**
- **HUNTING AREAS**
- **TOURIST CAMPS**
- **HOLIDAY SPOTS**

Fishing and Hunting . . .

Sprinkled over its 246,000 square miles of area, Manitoba has almost 27,000 square miles of water surface. That's a lot of water in which to grow a lot of fish . . . which is just what Manitoba has . . . real man-size fish . . . Speckles, pickerel (walleyes), lake trout, northern pike, bass, grayling and perch. *Angling Regulations* are printed each year prior to the season, and may be had for the asking from the Travel & Publicity Bureau, Winnipeg, or from any authorized angling license vendor. Among the many areas noted for good angling are the following:

The Whiteshell, Lac du Bonnet, the small lakes in the southwest of the province, The Pas area (which is the jumping-off spot for the Hudson Bay Railway which passes through hundreds of miles of lakes and streams, some never yet fished by white men), Cranberry Portage. For further information re accommodations, etc. in these areas, see under the town listing.

Like its fishing areas, Manitoba's hunting areas are spread all over the province, from the southeast corner and parts of the Whiteshell, across to the southwest corner, and north to the duck hunting areas of Netley creek, Delta, Lake Winnipegosis; and further north to the big game areas. In Manitoba we are very conservation minded . . . and to preserve our game, numerous large tracts of land have been set aside as Game Preserves. Also open seasons are not set until an annual survey of the game situation has been made. As with angling regulations, hunting regulations may be had from either the Game and Fish Department or Travel & Publicity Bureau, Manitoba Government, Legislative Building, Winnipeg.

The ultimate in sport is White Whale hunting, a sport carried on in the waters of Hudson Bay, at Churchill.

Hunting and Fishing Areas . . .

The following areas all have fine facilities for fishing and hunting. For details of accommodation available in these areas look in the town listings, where information is given about Tourist Camps and Lodges in the area.
